SHANKAR POLYMER PRIVATE LIMITED

An ISO 9001:2015 Certified Company

Serving Since 1994

Proud Owner of the Brand

SANVIKA
MADE IN INDIA

About Us

We, Shankar Polymer Private Limited, founded in 1994 under the able leadership of Sh. Shiv Shankar Sharma, are one of the foremost manufacturers and supplier of an elite range of Transparent Rigid PVC Film, Calendered Rigid PVC Film, Metalized PVC Films for Packaging, Lamination Film, Glitter Sheets, Three-Layer Printed PVC Film, Disposable Crockery and Metalized Trays. These products are made at our state-of-the-art fabrication unit by making use of top-quality raw materials and up to date tools and technology. Made in agreement with set quality standards, our variety is highly appreciated by clients for less upkeep requirement, design accuracy, longer functional life and efficiency. We are dedicated to offer reliable components to meet different requirements of varied industries. Our products are widely demanded at large scale in various sectors.

Our firm is engaged in processing quality grade raw material as per set quality norms. We boast the ability to meet forthcoming client's demands with the help of our advanced units. Our large storehouse facility helps us to meet bulk demands of patrons within committed time.

Owing to the leadership of our mentor and founder Sh. Shiv Shankar Sharma, we have gained reputed position in nationwide market. His precise plans and policies have made us able to make crystal clear dealing with the clients, as a result we have created huge goodwill in the market.

RIGID PVC FILMS

Transparent Rigid PVC Films

We are a renowned manufacturer of an excellent range of Transparent Rigid PVC Film or Clear Film. These films are wisely manufactured using best quality polyvinyl chloride. Available in different thickness and roll lengths, these films are widely used in packaging industry.

Our films can be thermoformed, welded, sealed, printed or laminated and offer good chemical resistance and optimized protection. We stringently test the durability and finishing of these PVC films based on standard parameters prior to final dispatch in market.

Product Details

Material: PVC

Colour: Transparent

Thickness: 0.06 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

This product is ideal for thermoforming, blister packing and skin packing. It is used for packing toys, gifts, clothes and cosmetics as they are transparent and impact resistant.

RIGID PVC FILMS

Transparent Coloured Rigid PVC Films

We manufacture around 1000 colours in rigid PVC films and all our products are fabricated using only the finest quality raw materials.

We specialize in customizing the colour as per client's requirements.

Product Details

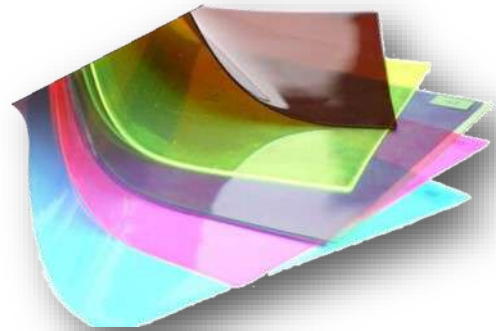

Material: PVC

Colour: Transparent Colour (We have a selection of 1000 colours)

Thickness: 0.06 mm – 0.50 mm

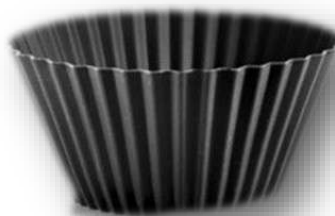

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

This product is ideal for Sequin manufacturing and can also be used for lamination, vacuum forming and blister packing.

RIGID PVC FILMS

Opaque Rigid PVC Films

We manufacture an extensive range of opaque PVC films. We can provide approximately 500 colours.

Opaque PVC films are used in application where transparency is inhibited. It is mainly used in making trays through vacuum thermoforming process. Our film quality ensures hassle-free and convenient processing on all types of machines. Excellent printability with all common printing methods. We can provide both gloss and matt surface finishes for the film.

Product Details

Material: PVC

Colour: Opaque Colour (up to 500 colours)

Thickness: 0.06 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

This product is ideal for Sequin manufacturing. It can also be used for lamination, vacuum thermoforming and blister packing.

METALIZED PVC FILMS

Catering to diverse requirements of clients, we are successfully manufacturing and exporting an extensive range of metalized films. These films also include a variety of metalized PVC films and metalized sequin films in different lengths and widths. These are basically polymer films coated with a thin layer of aluminium. Our entire range of films is extensively used for decorative purposes and food packaging. In addition, these are also applicable in insulation and electronics items.

Features

- * Highly appreciated among clients for their glossy metallic appearance.
- * No fading and discolouration of the coating.
- * Good for fool grade applications.

Product Details

Material: PVC/PET

Colour: Metallic Colours

Thickness: 0.10 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

It is widely used in vacuum thermoforming industry for making sweet trays, bhaji trays and disposable crockery. This product can also be used for blister packing in pharmaceutical industry, Sequin and Sitara manufacturing in garment industry and other decorative items like Ribbons, Jhallars etc.

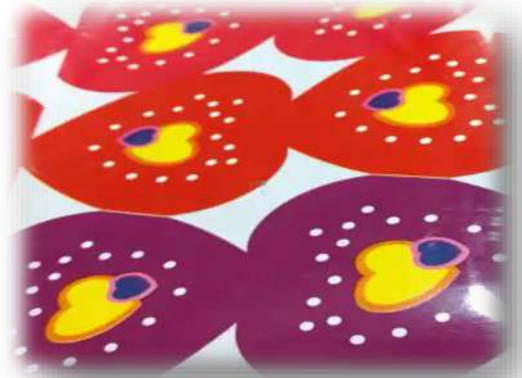

3-LAYER PRINTED PVC FILMS

We are the only manufacturers of three-layer printed PVC film which can be vacuum formed and can be used for food packaging.

Features

- * Easy to vacuum form.
- * No fading and discolouration of the printing.
- * Good for food grade applications.
- * Pthylate free.
- * Migration test passed at 30 degrees C.

Product Details

Material: PVC

Colour: up to 8 colour printing

Thickness: 0.06 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

It is widely used to pack liquid/solid chocolates and packing surprise egg toy candy.

LAMINATED PVC FILMS

We provide an extensive range of laminated PVC films. Our films are made from high quality raw material outsourced from reputed India and international firms like VACMET India Limited, JINDAL Polyfilms, GARWARE and EVEREST Holovisions.

Product Details

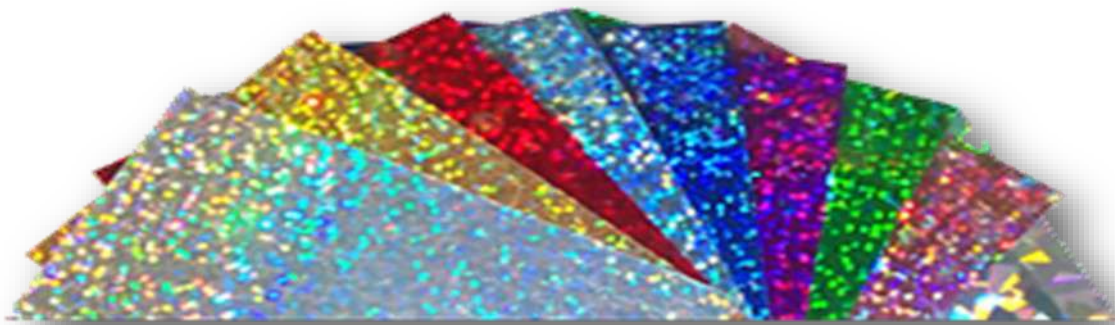

Material: PVC + Polyester

Colour: up to 1000 colours

Thickness: 0.10 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant

Width: 100 mm – 650 mm

Purpose

It is widely used to make Sitara/Sequins, decorative items and Rakhis/Bracelets.

GLITTER SHEETS

We are the leading manufacturer of glitter sheets which are used for making sequins and cd sequins. It is made from scattering glitter over the adhesive soaked medium.

Features

- * No fading and discolouration of the printing.
- * Good for die cutting.
- * Pthylate free.
- * Lead free.

Product Details

Material: PVC, Polyester, Pet Sheet

Colour: up to 100 colours

Thickness: 0.10 mm – 0.50 mm

Feature: Fire Retardant, Moisture Resistant, No Bleeding

Width: 100 mm – 650 mm

Purpose

It is widely used to make Sitara/Sequins, decorative items and Rakhis/Bracelets.

SANVIKA

MADE IN INDIA

Pressure - Thermoforming Division

As per company's tradition and urge to move forward, we Shankar Polymer Private Limited started our own thermoforming division in 2018. We launched our brand **SANVIKA**. Under this brand, we are manufacturing disposable sweet trays, disposable golden crockery and bhaji trays.

Our sweet trays are used as inner packaging for sweet boxes. They provide appropriate partition for different sweets and gives an elegant look to the sweet box.

It also makes things for sweet vendors a lot easier as they can add variety in a single sweet box making the process cost effective.

All our products in Crockery, Sweets and Bhaji range are

Moisture Resistant

Dust Free

Food Grade

Non-Toxic

Odour Less

Migration Test Passed
